Intraoral Scanners

We use intraoral scanners in the practice to:

- **Enhanced patient experience.** Bid farewell to the discomfort associated with traditional impressions. Intraoral scanners make your visits significantly more pleasant, elevating your overall experience and increasing patient satisfaction.
- **Optimised efficiency.** Time is of the essence. Intraoral scanners are designed for lightning-fast digital impressions, reusable digital records. Intraoral scans create electronic records, minimising the need for physical storage space and reducing the environmental impact of paper usage.
- **Unparalleled accuracy.** Precision is paramount in the dental field. Intraoral scanning produces highly accurate digital impressions, reducing patient discomfort and the need for remakes, ultimately saving you valuable time and resources.

770597 to find out more.

Castle Park Dental Care Newsletter

November 2024

**Join us in wishing
Andrew and Hollie
a wonderful
Birthday!**

Out Of Hours

We would like to inform our patients that if you require assistance outside of our regular practice hours, you can still reach us by calling our usual number, 01482 770597. The recorded message will provide instructions on how to contact the Castle Park Dental Care team.

Additionally, we collaborate with several local practices to ensure weekend and Bank Holiday coverage. If you need care during these times, simply call the practice number, and your call will be redirected to the on-call dentist.

Please note that a call-out fee of £120 applies for these services.

We're always here to support you, even outside of normal hours.

If you have any questions or would like to book an appointment, please do not hesitate to contact us by calling the practice on 01482 770597 or send an email to talk2us@castleparkdental.co.uk
